Hi Scott,

Sorry for the delay in getting back to you on this. At the NRT meeting you and I talked about whether EPA can be flexible about allowing a metal recycler "within" the Columbia R. to take the LST despite the SF Site status. I talked to folks here and they think there is some flexibility there, particularly if it saves millions of dollars. Our EE/CA is quickly approaching completion and when complete we should get a small group of us EPA and CG [RRT/COPT types] together to informally discuss how to proceed.

Chris D. Field, Manager
